What is Carter's price guide?

Carter's price guide to antiques has been operating as a guide on art, antiquities, collectables, retro, vintage and 20th century items for over three decades. This guide is a great tool to give collectors and sellers up to date information on the potential worth of items from details sourced from actual auction sales in Australia and New Zealand.

What can I use it for?

Evaluate the sale price of items by viewing the most up-to-date auction sales from Australia and New Zealand. Carter's price guide allows users to search via category/subcategory or by using key words to find exactly what you need. The professional photographs of over 300, 000 items allow users to gain precision knowledge of each item and pricing. To get started go to the following address, select 'Carter's price guide' and enter your library card details for access.
