- Asbestos and products containing asbestos
- Fibre cement sheeting
- Fibro (of any kind – old or new)
- Soil (any amounts)
- Others (as designated by Council)
- Villaboard/ blueboard

How to use this facility

All vehicles must enter and exit the Facility via the weighbridge.

Closed circuit television records images of all vehicles entering and exiting the site and stores these images along with vehicle and transaction information.

Charges are set according to weight and waste type.

After you have disposed of your waste, follow the signs to the exit point where you will drive onto the exit weighbridge (when the light is green). The exit weight of the vehicle is automatically deducted from the entry weight and the relevant charges calculated.

Any load containing or suspected of containing prohibited materials, will be directed to leave the facility, without unloading any materials.

The Hawkesbury City Waste Management Facility receives domestic and select other materials from within the Hawkesbury Local Government Area and from the neighbouring LGA's of Blacktown, Penrith, The Hills, and Blue Mountains.

For Hawkesbury residents and businesses, to ensure you receive the applicable Hawkesbury LGA fees you must provide Proof of Residency. Your current drivers licence is acceptable for domestic materials from your home address. Hawkesbury Commercial Customers or persons bringing materials from properties other than their own address will need a current Hawkesbury Council Rates Notice to receive the Commercial Hawkesbury LGA fees.

Persons without the required documentation will be required to pay the applicable fees for outside the LGA customers.

Asbestos

Asbestos is not accepted at the Waste Management Facility.

For more information on the safe disposal of asbestos, see *Safely disposing of asbestos waste in your home* at www.environment.nsw.gov.au
