LITERACY PLANET

- ☑ **Home access**
- ☑ **Library access**
- ☑ **K – 6+**

What is Literacy Planet?

Literacy Planet is a fun way for children to improve their literacy skills. It has been designed by Australian educators and aligned to the Australian curriculum. The gamified, interactive and engaging content is ideal for independent learning at home. Children will receive immediate feedback at the completion of every exercise and will develop their skills in spelling, grammar, comprehension, reading and phonics. Literacy Planet is designed for children in years K-6 but is adaptable to suit secondary school levels of ability and learning.

## What can I use it for?

Literacy Planet can be used to help children strengthen their literacy skills in a way that is fun as well as educational. With the extra time at home while many of us are doing online schooling, now is the perfect time to maximize learning by logging onto Literacy Planet and working through the games. To get started, go to the following web address, click on 'Literacy Planet' and create an account for free access:
