

# Business Waste Service Options

## 2024/2025

Hawkesbury City Council provides a business waste collection service which is available to all businesses within the Local Government Area. The waste collection service consists of the collection of a residual garbage bin and a recycling bin. Businesses can choose from several waste service options.

Council's sustainable standard waste service for businesses includes a 240 Litre fortnightly recycling collection (for bottles, can, cartons, containers, paper and cardboard) and a 140 Litre weekly general (residual) garbage collection (for waste that is non-recyclable).

Businesses in selected urban areas can receive a garden organics bin for an additional \$134.65.

The table below outlines the different services available to areas of the Hawkesbury and includes the 2024/2025 domestic waste charges.

**Please note:** any commencement or change to a waste collection service must remain in place for a minimum of 12 months.

For further information, or to discuss your service, please contact Council on (02) 4560 4444.
