MESSAGE FROM OUR LEADERS

Dear Hawkesbury Residents

We have worked hard to capture the aspirations for Hawkesbury's future in our Community Strategic Plan by listening to you.

This has resulted in the Hawkesbury Delivery Program 2022-2026. This Delivery Program is the way we put into action the community's strategic goals, which are in the Community Strategic Plan. The Delivery Program details the principle activities to be undertaken by Council to implement the strategies established by the Community Strategic Plan. It is our statement of commitment to the community as to what we plan to achieve in the next four years.

All plans, projects, activities and funding allocations must be directly linked to this Delivery Program 2022-2026 to deliver on the Community Strategic Plan. Financial estimates for the activities listed in the delivery program can be found at the end of this document.

Your voices have been heard and we are committed to taking our community on that journey, as designed by you. As a community, you have told us that you want Council to:

- strengthen communication and engagement with the community
- secure our financial sustainability
- support volunteerism and advocate for public transport and health services
- improve the health of our waterways and minimise the ecological impact of development
- promote recycling and resource re-use and reduce illegal dumping
- upgrade roads, bridges, town centres, drainage, public toilets, parks and buildings
- advocate strongly to other levels of government for improved infrastructure
- plan for more sustainable and balanced development
- build on the Hawkesbury's heritage to promote tourism, and
- collaborate to increase local employment, affordable housing and community safety.

As a response, the Delivery Program 2022-2026 has placed particular focus in a number of areas for the Hawkesbury, including:

- Town Centres Revitalisation
- community building
- financial sustainability
- connecting with the community
- building strong and collaborative relationships
- protection of our unique environment

- establishing identity
- moving towards becoming a carbon neutral local government area
- reducing our ecological footprint
- improved transport connections including upgrading our roads.
- planning for and delivering better places and spaces
- placemaking
- recognition of heritage and actions to reflect that recognition.

To ensure the success of the Delivery Program 2022-2026, we will continue building collaborative partnerships with other organisations and agencies to deliver fruitful and long lasting outcomes for the Hawkesbury community.

We will work in tune with our executive to ensure the successful implementation of this Delivery Program. At the conclusion of our Council term, we will report back to the community on what has been achieved. We will update you on our progress and achievements along the way, so that you can hold us accountable.

This document is the tool we will use to work with you. We encourage you to be involved and contribute wherever possible as we deliver the plan. This way, we will turn the Hawkesbury community's aspirations into action.

INTEGRATED PLANNING AND REPORTING

Under the NSW Local Government Act 1993, councils are required to develop a hierarchy of plans known as the Integrated Planning and Reporting (IPR) Framework. This framework assists councils in delivering their community’s vision through long, medium and short term plans. The purpose of the framework was to formalise strategic and resource planning across NSW councils and ensure long term planning is based on community engagement leading to a more sustainable local government sector.

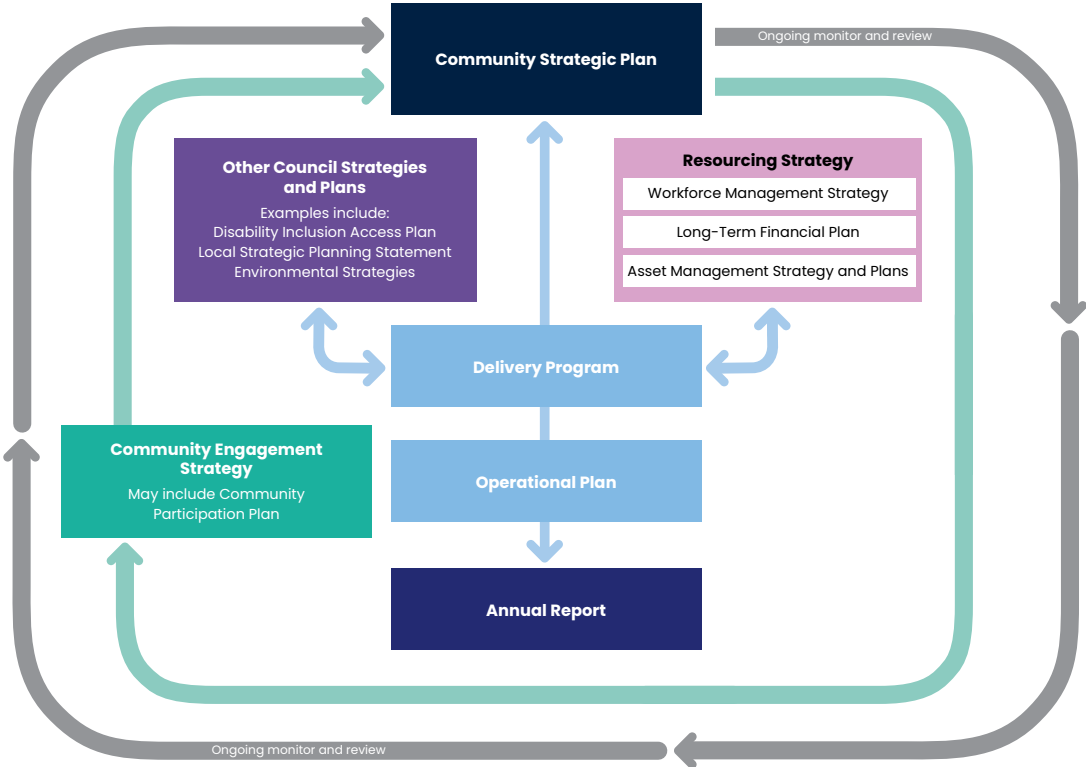

Our Community Strategic Plan (CSP) 2022-2042, identifies the community’s vision for the future, long-term goals, and strategies to get there and outlines how Council will measure progress towards that vision.

The **Delivery Program** is a four year plan which outlines Council’s commitment to achieving the outcomes and strategies of the CSP. It sets out the initiatives that Council will undertake during its four year term of office, with detailed annual actions to implement the initiatives listed in Council’s annual Operational Plan and Budget.

These plans are supported by the **Resourcing Strategy** which consists of three key components:

- Long Term Financial Plan
- Asset Management Strategy and Plans
- Workforce Management Strategy

Annually, we develop our **Operational Plan** supported by the budget, which identifies the actions from the delivery program to be delivered each year.

MEASURING PROGRESS AND REPORTING

Under the Local Government Act 1993, councils are required to ensure that progress reports are prepared to detail the principal activities listed in their plans. The IPR Framework requires councils to measure progress in delivering the activities set out in the Delivery Program and Operational Plan and to show how all projects and initiatives scheduled, contribute towards achieving an outcome the community has identified as a priority in the CSP.

Our Community Strategic Plan identifies four Community Outcomes that support the goals of the community.

The Community Outcomes are:

- Great Place to Live
- Protected Environment and Valued History
- Strong Economy
- Reliable Council

In our Community Strategic Plan, each community outcome is accompanied by the long term objective the community would like to achieve by 2042, as well as strategies to achieve them. Each four year initiative in the Delivery Program has been developed to deliver on one or more of these strategies.

Also included in this document are performance measures and targets that are used to demonstrate progress against service delivery.

OUR HAWKESBURY

The Hawkesbury region is named for the Hawkesbury River, which flows through our boundaries. There are four river valleys, and topographically, the area is typified by fertile flood plains and wetlands, hills, ridges and gorges.

The Aboriginal name is Dyarubbin, and the traditional custodians are the Darug and Darkinjung people. These peoples have one of the longest known connections to a place, stretching back 50,000 years – before the last Ice Age.

In 1810, Governor Macquarie established the five towns of the area – Windsor, Richmond, Wilberforce, Pitt Town and Castlereagh. These have become the major centres of the area. While four of the names reflect places in England, Wilberforce and Pitt Town were named after William Wilberforce, who is credited with ending the English slave trade, and William Pitt the Younger who planned the colonisation of New South Wales.

Another 65 rural and hinterland towns dot the almost 2800km² area, providing homes and livelihoods to the approximately 67,000 residents of the area. In terms of land size, the Hawkesbury local government area is the largest in metropolitan New South Wales.

Today's residents of the Hawkesbury continue the long history of agriculture, which has supported Sydney since early colonisation. Our region leads production in vegetables, poultry, meat, eggs and cultivated turf.

The Hawkesbury is home to the RAAF Base Richmond, a high security aviation facility which sits alongside an education precinct. The Hawkesbury region is also home to a strong equine industry, including breeding and training horses for polo, racing, recreational riding and Olympic-standard dressage.

Tourism plays an important part in our economy. Locals and visitors recognise the area for its natural, built and scenic environments, and the historic features of our local area. Visitor stays increased approximately 35% to from 2010 to 2019, as more people discovered the area.

Our Community's Vision for The Hawkesbury:

We see the Hawkesbury as a vibrant and collaborative community living in harmony with our history and environment, whilst valuing our diversity, striving for innovation, a strong economy and retaining our lifestyle and identity.
